SUMMARY

Software Developer focused on database administration, SQL development, and automation, with hands-on experience in MySQL, MariaDB, Oracle, Python, and Django. freeCodeCamp-certified in Relational Databases.

EXPERIENCE

ServiceNow Developer Rizviz International Impex Apr 2026 – Jun 2026

- Managed MySQL databases, ensuring data integrity, and wrote optimized SQL and Oracle queries for reporting.
- Performed schema updates, managed migrations with Django ORM, and conducted database testing, validation, and performance monitoring.

Asapp Studio *Software Developer* AUG 2025– MARCH 2026

- Developed web applications using Python, Django, and MySQL; wrote efficient SQL queries for data retrieval and reporting.
- Built backend features, managed database migrations with Django ORM, and worked in a SCRUM team using Git.

Projects

Rxora Pharmacy – Automated Database Backup System | Python, MariaDB/MySQL, Google Drive, Windows

- Built a Python-based system to automatically back up MariaDB/MySQL databases to Google Drive, protecting pharmacy data from local failures.
- Implemented scheduling, backup verification, retry handling, logging, and success/failure notifications for reliable unattended operation.

World Cup Database | PostgreSQL

- Designed a database of 24 teams and 32 games and wrote 12 queries to analyze the data.

Salon Appointment Scheduler | PostgreSQL, Bash

- Built an interactive CLI application on a 3-table schema for booking salon appointments.

CERTIFICATIONS

Relational Databases Certification – freeCodeCamp

- Completed five hands-on projects and passed the certification exam, covering database concepts, database design, SQL, and practical data handling.
