SUMMARY

Junior Software Developer with a strong focus on database administration, SQL development, and automation. Experienced with MySQL, MariaDB, Oracle, Python, and Django ORM through professional internships and hands-on projects. Built an automated MariaDB/MySQL backup system for a pharmacy application, including scheduling, Google Drive transfers, verification, retry handling, logging, and failure notifications. freeCodeCamp-certified in Relational Databases and committed to reliable, secure, and well-documented database systems.

EXPERIENCE

Rxora Pharmacy – Automated Database Backup System

Python, MariaDB/MySQL, Google Drive, Windows

- Built a Python-based system to automatically back up MariaDB/MySQL databases to Google Drive, protecting pharmacy data from local failures.Implemented scheduling, backup verification, retry handling, logging, and success/failure notifications for reliable unattended operation.

RhomBix Technologies *Intern Web Developer* OCT 2024 – DEC 2024

- Developed web applications using Python, Django, and MySQL; wrote efficient SQL queries for data retrieval and reporting.Built backend features, managed database migrations with Django ORM, and worked in a SCRUM team using Git.

Rizviz International Impex *ServiceNow Developer* APR 2026 - JUN 2026

- Managed MySQL databases, ensuring data integrity, and wrote optimized SQL and Oracle queries for reporting.Performed schema updates, managed migrations with Django ORM, and conducted database testing, validation, and performance monitoring.

Relational Databases Certification – freeCodeCamp

- Completed five required hands-on projects and passed the freeCodeCamp Relational Databases Certification exam.Covered the fundamentals of relational databases, including core database concepts, database design, SQL, and practical data handling.
- Relational Databases Certification – freeCodeCampCompleted 5 hands-on projects covering database design, SQL, and data handling.Built World Cup Database (PostgreSQL, 24 teams, 32 games, 12 queries) and SalonAppointment Scheduler (3-table schema, interactive CLI).
- Projects on **GitHub: github.com/hanju09**

EDUCATION HISTORY

Bachelor of Computer Science – Institute of Management Sciences

2021 – 2025 | CGPA: **3.16**

SKILLS

- **Languages:** Python, Java, SQL, Bash
- **Databases:** MySQL, MariaDB, Oracle, PostgreSQL, Django ORM
- **DB Admin:** Design, Query Optimization, Migrations, Data Integrity, Backup & Recovery
- **Web:** HTML, CSS, JavaScript, Django, Java
- **Tools:** Git, GitHub, Google Drive, Windows
- **Soft Skills:** Problem Solving, Team Collaboration, Time Management
